

THE EUROPEAN NETWORK OF SAFETY AND HEALTH PROFESSIONAL ORGANIZATIONS

**FULL MEMBERS
2026**

Benefits for Members

ENSHPO membership provides a framework for collaboration, representation, and professional growth at European level. It enables member organisations to engage with a wider network, contribute to the advancement of the EHS profession, and take part in shaping safer, healthier, and more sustainable workplaces across Europe.

European Recognition & Professional Identity:

- Membership in ENSHPO's European network, representing national EHS professional associations across Europe
- Recognition as part of the collective European voice of EHS professionals, aligned with EU-OSHA and key international partners
- Enhanced visibility through ENSHPO communications, events, and platforms
- Strengthened professional and organizational credibility through association with a respected European-level body

Professional Development & Knowledge Exchange:

- Access to ENSHPO technical webinars featuring leading European and international EHS experts
- Opportunities to share and learn from European best practice, case studies, and emerging approaches
- Visibility and dissemination of member expertise through presentations, contributions, and digital channels
- Support for harmonisation of professional knowledge and competence across Europe

Knowledge, Guidance & Thought Leadership:

- Access to European-level guidance, position papers, and collaborative publications
- Early insight into EU regulatory developments, strategic initiatives, and policy trends impacting EHS

- Participation in the development and dissemination of best practice and innovation across member countries
- Engagement with safety initiatives such as Vision Zero, Harmony, Sustainability, and EHS integration

Networking & European Community:

- Participation in a pan-European network of EHS professional organizations
- Opportunities to collaborate with peer associations, regulators, institutions, and strategic partners
- Access to working groups, task forces, and collaborative projects addressing key EHS challenges
- Strong professional relationships built through virtual and face-to-face European events

Career Development & Professional Mobility:

- Support for the development of a comparable European professional identity for EHS practitioners
- Contribution to frameworks that enable cross-border professional recognition and mobility
- Opportunities for early-career professionals to engage with European-level initiatives and visibility
- Enhanced employability through alignment with European competence and qualification standards

Influence, Advocacy & European Representation:

- Representation of member interests at European and international level, including engagement with EU-OSHA
- Collective participation in policy dialogue, consultations, and strategic initiatives
- Opportunity to influence the future direction of the EHS profession in Europe
- A stronger, unified voice on health, safety, environment, and sustainability issues

Leadership, Volunteering & Working Groups:

- Opportunities to participate in ENSHPO Working Groups and strategic initiatives
- Development of leadership, governance, and collaboration skills at European level
- Contribution to tangible outputs such as guides, manuals, research, and position papers
- Recognition for professional contribution and service to the wider EHS community

Events, Webinars & Knowledge Sharing:

- Access to and participation in ENSHPO conferences, webinars, and partner events
- Opportunities to present national experiences, case studies, and innovations to a European audience
- Exchange of perspectives that support continuous improvement and mutual learning

International Collaboration & Global Reach:

- Links to international initiatives and global networks, including ISSA and global OSH assemblies
- Opportunities to contribute European expertise to global discussions on safety, health, and well-being
- Alignment with the UN Sustainable Development Goals and future-of-work agendas

Added Value for Member Organizations:

- Increased visibility for member associations through ENSHPO communications and initiatives
- Opportunity to co-create and lead European projects and partnerships
- Strengthened capacity of national associations through shared knowledge, tools, and collaboration
- Being part of a trusted European platform working to advance safer, healthier, and more sustainable workplaces

ENSHPO Working Groups

To support our strategic vision, ENSHPO members engage in Working Groups

- **Purpose & Mission:** Promote occupational safety, health and environmental protection across Europe by engaging decision-makers, sharing best practice, and building a professional community.
- **Vision:** A comparable body of knowledge and professional identity for all European EHS professionals, grounded in ethics and commitment.
- **Responsibilities:** Develop proposals and work plans, commission research, communicate with stakeholders, liaise with the ENSHPO Board, and deliver at least one publication per year.
- **Membership:** Subject matter experts nominated by member associations; each group led by an elected Chair and Secretary. Recommended size: ≤ 7 members. No financial remuneration.
- **Operations:** Minimum 5 meetings per year (mainly online), term of 3 years, close collaboration with the ENSHPO Board.
- **Member Conduct:** Ethical, transparent, collaborative, with full preparation, active participation, and commitment to integrity and consensus.

Current ENSHPO Working Groups reflect both strategic priorities and the operational needs of the network. Thematic groups focus on key areas shaping the future of the EHS profession, including:

- Vision Zero
- Certification
- Digitalisation

These groups contribute to European initiatives, guidance, and the development of common standards and professional recognition frameworks.

In parallel, ENSHPO also maintains internal working groups focused on communication, membership, and partnerships, supporting the effective functioning, visibility, and growth of the network.

ENSHPO Working Group on Digitalisation:

- Established in February 2025 with members from AEPSAL, AIAS, AM-PRO, DPALV, DVJLjubljana and NISO.
- Purpose: Build on EU-OSHA's 2023–2025 digitalisation campaign outputs (documentation, case studies, guidance).
- Main deliverable: Prompt Manual to support effective and efficient use of AI tools by OSH professionals.
- Expected benefits:
 - Streamline documentary workload.
 - Integrate AI as a complementary professional tool.
 - Planned launch: 2026.

THANK YOU
